DELIVERY
EXPERIENCE

Delivering What's Important to You

At STAT Courier, we take pride in delivering what's important to our clients.

For health plans, laboratories, hospitals, or other healthcare facilities that need to move time-sensitive specimens and medical equipment successfully and cost effectively, we offer reliable medical logistics management solutions. Our partners look to us for solutions when they are frustrated with the lack of options for transferring laboratory specimens from one site to another in a way that is reliable, cost-effective—all while maintaining specimen integrity.

Services

Our logistics management solutions include a full range of services, from scheduled to on-demand service, expedited deliveries, and same-day deliveries. Customized solutions include logistics and routing to all of your locations, barcoding, and real-time tracking. Through specialized scheduling coordination, we strive to reduce transit delivery time, saving you time and money while providing you and your customers peace of mind. Beyond the medical industry, STAT also specializes in other logistical delivery solutions, that can be customized to your needs.
